

CHAT Web Design 1

Chapter 11

Your Final Website - with a Layout Change

Part 1:

Your final assignment will be for you to change the layout of your personal website that you have been working on this semester and to add any styling changes you would like.

You can use any of the layouts that we have studied as long as your main page has either a sidebar or at least 2 columns.

Ways to utilize the sidebar (or 2nd column):

- Make a navigation menu for your page using text or buttons (made with Gimp or found online).
- Put your links to outside pages there.
- Quick Facts
- Highlight one particular feature of your website
- Thumbnails of pictures

Note: Your sidebar does not have to be large.

Part 2

You will be presenting your website to the class next week. the class your website.

Your presentation includes:

- Telling why you chose your topic
- Describing the layout you chose and why
- Navigating through the links to show us all of your pages.
- Commenting on your styling and why you chose your colors, etc.
- Answering any questions from the class.
